

This year SARS celebrates its 50th anniversary, and we want to mark this fantastic achievement in a BIG way. Last year, SARS managed to raise around £150,000, but this year we would love to raise an additional £50,000+ in order to fund vital investments in our clinical resources in our 50th year. To achieve this, we would like to challenge at least 50 businesses, groups and individuals to commit to raising a minimum of £1,000 each for SARS during this, our 50th year of saving lives (01/05/22 -30/04/23).

The extra £50,000 would help us fund the set-up of new SARS responders and enable us to buy advanced monitors, ventilators and other life-saving equipment to treat critically ill and seriously injured patients in-and-around Suffolk.

Since 1972, volunteer SARS Doctors and Paramedics have answered over 18,500 calls for their assistance at serious or life-threatening incidents. Their advanced interventions have helped save countless lives as well as reducing the chance of permanent disability.

**50 for 50**

**From football tournaments or golf days, to cake sales and sponsored runs - these are just some of the ways in which our supporters have raised money for SARS.**

**Could YOU help us to reach our target in this landmark year?**

**An additional £50,000 for SARS would go a long, long way...  
Are you in? If so, please contact: [50for50@sars999.org.uk](mailto:50for50@sars999.org.uk)  
and become one of the fifty - thank you!**

Suffolk Accident Rescue Service is a Registered Charity (No. 1168764)  
Address: Unit 1b, Windmill Avenue, Woolpit IP30 9UP
